

SERIOUS POWER OUTAGES ARE A PART OF MODERN LIFE.

In fact, during the most recent five-year period, **these outages increased by 58%**. It doesn't take much. And the cost is enormous: tens of billions of dollars in lost revenue by commercial businesses each year, with a median **loss for small businesses of \$12,500 per day**.

Unified Building Group and Cummins are experts in standby power systems. Call us to today to discuss turn-key installation and maintenance program options. In some cases, return on investment can be achieved in a single extended outage.

We offer a complete line of prime and standby power solutions for a variety of applications, such as:

KEY FEATURES

- Market leading PowerCommand® 1.1 and PowerStart 500™ as standard for total system integration
